

UV stabilized polyethylene storage tanks

CHEMTROL® offers a range of chemical storage tanks designed for corrosive liquid and powders. Industrial tanks moulded in natural stabilised material allowing for both indoor and outdoor applications.

Manufactured from UV stabilized polyethylene which complies with Australian standard AS2070, these freestanding containers consist of clean smooth internal walls and 150mm sealable screw lid, offer strength, easy access and calibrated level indicators, lighter natural colour and 110Ltr. to 260Ltr in size.

The lighter natural colour offers the additional feature of being able to identify the liquid level through the tank wall.

Dimensions and Weight

Model	Size	Diameter	Height	Weight
CST110L	110 Ltr	495 mm	675 mm	6.5 Kg
CST218L	218 Ltr	590 mm	865 mm	11 Kg
CST260L	260 Ltr	590 mm	1,040 mm	13.6 Kg

Rugged design Tank

Moulded tanks come standard with:

- 20 mm outlet (3/4" BSP) allows for optional discharge.
- Top flat surface to bolt down metering dosing pump or liquid mixer.
