

Key Features

- Forged body for durability and high pressure applications
- Two ways, normally closed
- Working Pressure 0.1/0.3 ~ 6 Bar
- Rated protection: IP65
Watertight electrical enclosure for outdoor use
- Closing feature minimizes water-hammer on shut-off
- Working Voltage: AC24V, AC110V, AC230V, AC240V (50Hz/60Hz), DC12V, DC24V

Specifications

- Valves body Material : uPVC
- Rated protection : IP65
- Sealing Material : VITON
- Temperature From : -5 to 60°C
- Durability : Corrosive liquid, Acid, Alkali, Air
- Working Pressure : 0.1/0.3 ~ 6 Bar
